

How to be a

Planet Protector

Let's be Earth's superheroes!

Introduction

We can all make a difference in protecting our planet by taking small actions in our daily lives.

We must take care of it.

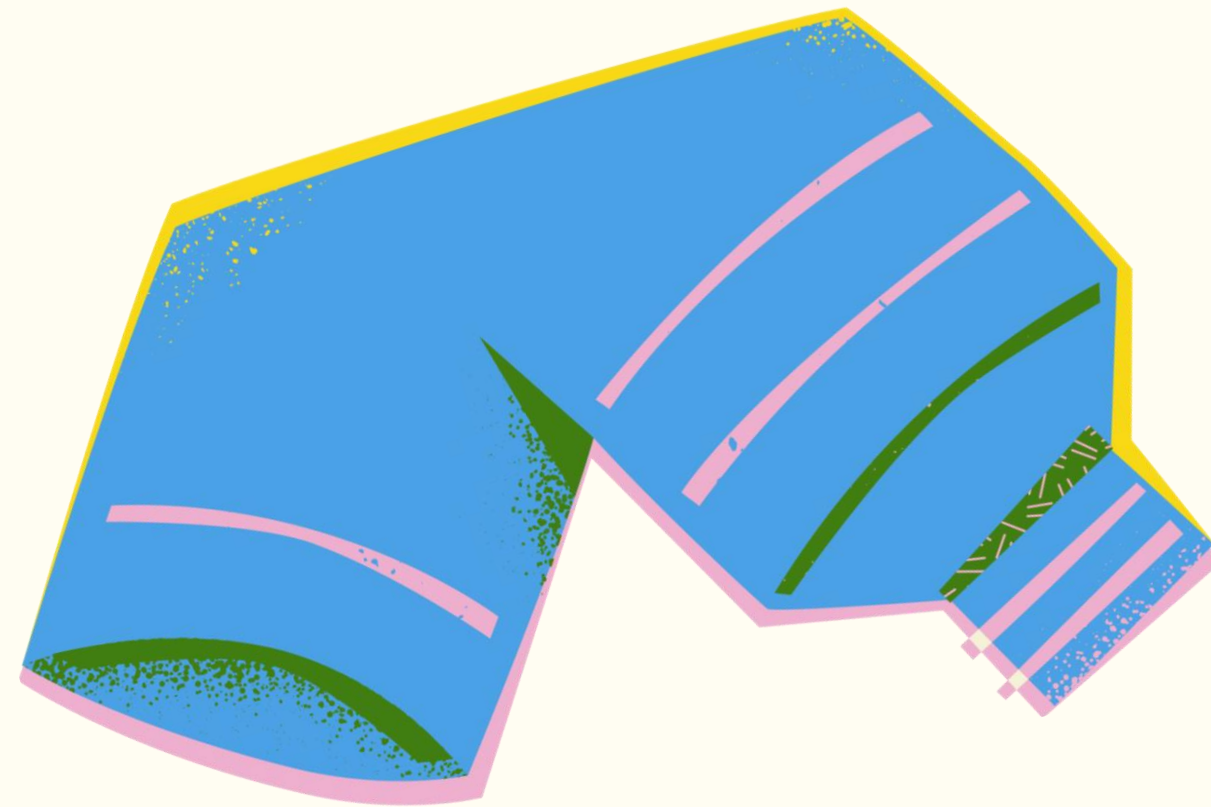

**We want to
keep Earth
clean and
healthy!**

**In our school,
there's a special
week called
'Green week',
dedicated to
planting and
cleaning our
outside space.**

- **We plant trees
and flowers in
our city**

- **We also go
around our city
and collect the
garbage that was
thrown away on
the streets by
unconscious
minds**

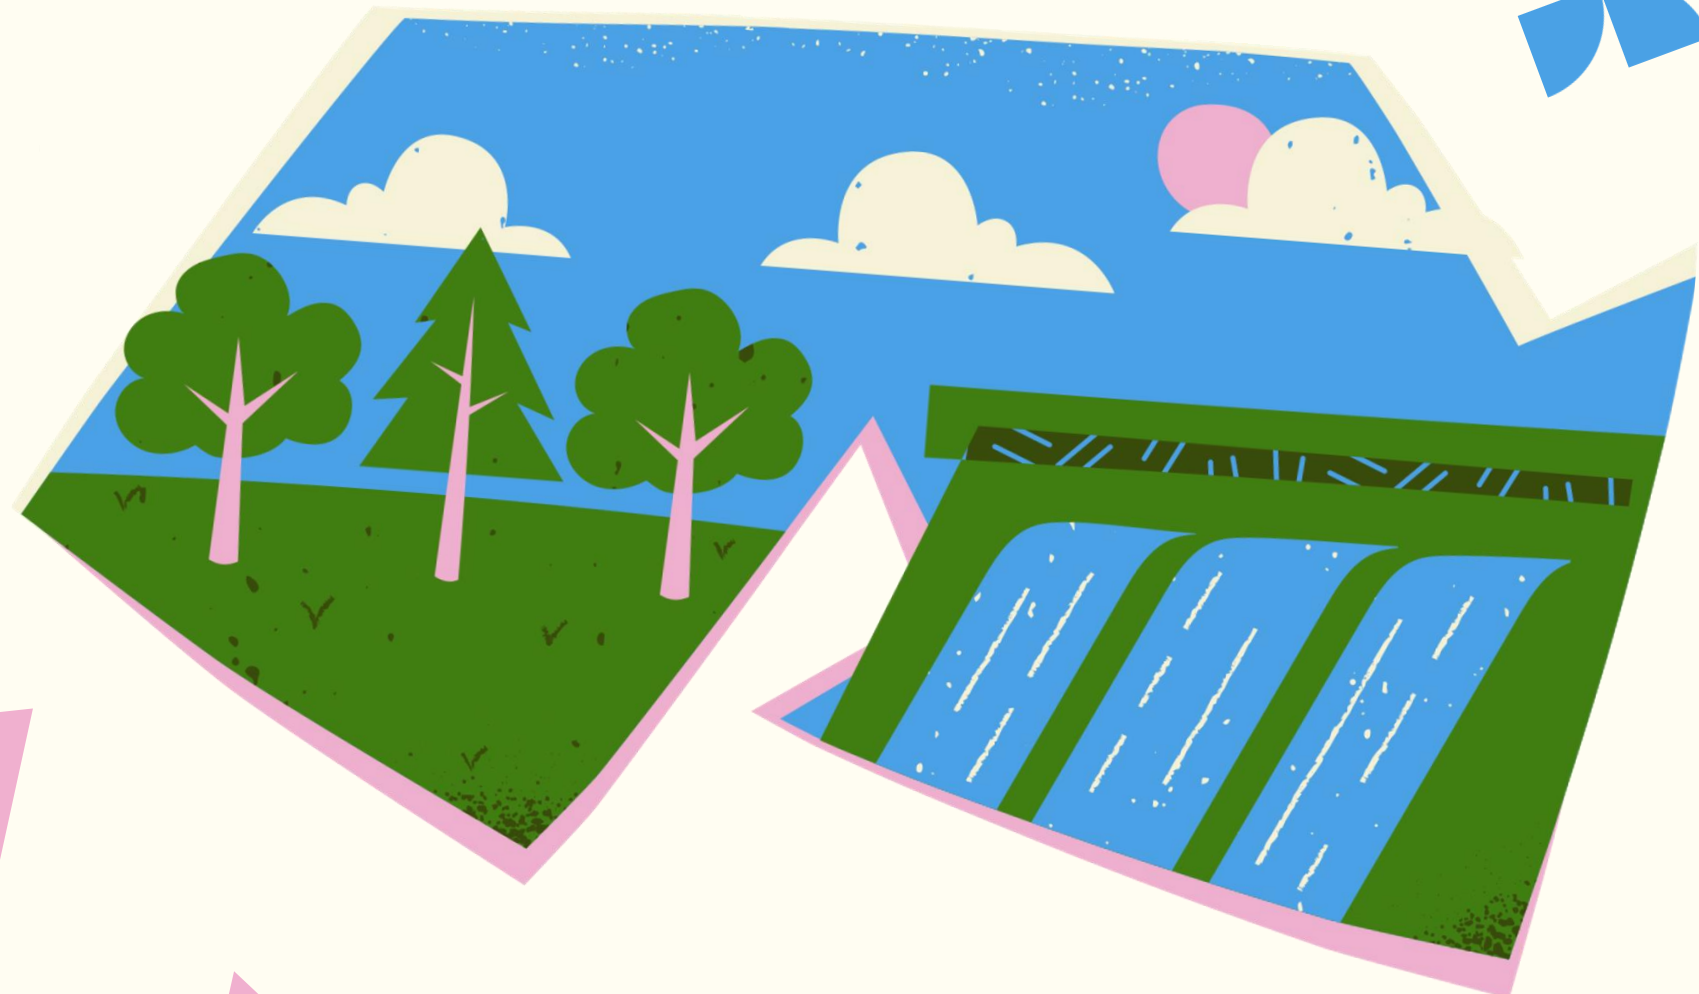

Reduce REUSE Recycle

BY reducing our waste,
reusing items when
possible, and recycling,
we can significantly
decrease our
environmental footprint.

Save Energy & Water

- Conserving water and energy by taking shorter showers and turning off lights and electronics when not in use can help preserve our planet's natural resources.

Small actions = big steps!

**Be a
Planet**

Hero!

Every small action we take can add up
to make a big difference in protecting
our planet, so let's start making a
positive impact today!

Thank You

For Your ATTENTION!
